-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 1774

1. The disclosure is objected to because of the following informalities: The monomer II-4 disclosed on page 13 of the specification does not meet the general formula II as claimed. Applicants' response that when R^2 is hydrogen and R^1 and L_2 form a ring, the monomer is within the definition of formula II is unpersuasive because this would appear to form four bonds to the nitrogen. In the formula, the nitrogen is not shown as having a charge. In addition, formula III of page 10 is inconsistent with formula III as currently claimed.

Appropriate correction is required.

2. Claims 1-11 and 13-35 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. These claims are unclear due to the inconsistencies with the specification set forth in paragraph one above.

3. Claims 23-34 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The amendments to claim 23 are not supported by the specification and original claims. Applicants should supply support for entry of this amendment demonstrating that the original specification contained an error and that the amendment was to correct the error consistent with applicants' intent at the time of filing of the application.

4. Applicant's arguments filed November 2, 2005 have been fully considered but they are not persuasive with respect to the objection to the specification. However, applicants' amendments have overcome the previous prior art rejection. Applicants' arguments are moot with respect to the new grounds of rejection set forth above.

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Pamela Schwartz whose telephone number is (571) 272-1528.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Rena Dye, can be reached on (571) 272-3186. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system.
